Science and Technology, Tainan
710301, Taiwan

Dr. Chao-Hsien Lee

Department of Electronic
Engineering, National Taipei
University of Technology, Taipei,
Taiwan

Dr. Yu-Chi Chung

Department of Industrial
Engineering and Management,
National Kaohsiung University of
Science and Technology,
Kaohsiung 80778, Taiwan

Deadline for manuscript
submissions:

15 July 2024

Message from the Guest Editors

This Special Issue's goal is to address the use of artificial intelligence in wireless communications and other areas of technology by bringing together a collection of original research papers on the topic. All submissions need to provide an explanation of the artificial intelligence that will be utilized to manage the wireless network.

Potential topics include but are not limited to the following:

- Artificial intelligence for the convergence of communications;
- Allocation of wireless communication resources;
- Distributed artificial intelligence and federated learning in wireless networks;
- Energy-efficient scheduling for the artificial intelligence of things (AIoT);
- Low-latency wireless communication control protocols;
- Intelligent wireless network technologies that use multidimensional radio access and backhaul technologies;
- Optimization of wireless communication, storage, and computing resources;
- Video streaming with network intelligence;
- Multimedia AIoT systems and applications.

an Open Access Journal by MDPI

Editor-in-Chief

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
