Message from the Guest Editors

We are pleased to announce that the Section Computer Science and Engineering is compiling a collection of papers submitted by our Section's Editorial Board members and leading scholars in this field of research. We welcome contributions as well as recommendations from Editorial Board members.

The aim of this Special Issue is to publish a set of papers that characterize the best original articles, including in-depth reviews of the state of the art and original and very up-to-date contributions involving the use of intelligent models and/or the IoT in sectors of interest. Anything that brings innovative elements and is related to Deeptech is welcome. We hope that these articles will be widely read and have a great influence on the field. All articles in this Special Issue will be compiled in a print edition book after the deadline and will be appropriately promoted.

Topics of interest are all those involving advanced intelligent models and their applications in areas such as:

- IoT and its applications
- Industry 4.0
- Smart cities
- Biotechnology
- Precision agriculture
- Fintech
- Quantum economy
- Blockchain
- Cybersecurity
- Big data analytics and artificial intelligence
