

## Internet of Things for Smart Grid

Guest Editors:

**Dr. Imed Ben Dhaou**

Department of Computing,  
University of Turku, 20500 Turku,  
Finland

**Prof. Dr. Ahmed Abdelgawad**

School of Engineering &  
Technology, Central Michigan  
University, Mount Pleasant, MI  
48859, USA

**Prof. Dr. Hannu Tenhunen**

Department of Electronic  
Systems, Royal Institute of  
Technology, Stockholm, Sweden

Deadline for manuscript  
submissions:

**closed (30 September 2023)**

### Message from the Guest Editors

Smart grid is a revolution in the energy sector in which the aging utility grid will be replaced with a grid that, among other features, integrates advanced control algorithms for teleoperations, incorporates distributed energy resources, and supports two-way communication between customers and the utility company.

The Internet of Things (IoT) is the enabling technology for the realization of smart-grid functions and services. Machine learning algorithms are used at the cloud and edge devices to process the data gathered by distributed sensors. This Special Issue is devoted to Internet of Things technology for smart grids. We seek original papers with novel research contributions in all aspects of design, analyses, algorithms, architecture, and implementation of smart grids using IoT technology.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Flavio Canavero**

Department of Electronics and  
Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)
