Deadline for manuscript
submissions:

15 October 2024

Message from the Guest Editor

Dear Colleagues,

Software-defined cloud computing is an emerging field that has gained significant attention in recent years. It involves the use of software-defined technologies to manage and orchestrate cloud resources such as computing, storage, and networking. This approach enables the creation of highly automated, flexible, and dynamic cloud infrastructures that can adapt to changing workloads and business requirements. The software-defined approach also enables the implementation of advanced management and security features, as well as the integration of multiple cloud platforms and services. Suggested topics include (but are not limited to):

- Software-defined cloud infrastructure design and deployment;
- Cloud resource management and orchestration using software-defined approaches;
- Security, privacy, and compliance issues in software-defined cloud computing;
- Interoperability and integration of multiple cloud platforms and services;
- Performance optimization and energy efficiency in software-defined cloud computing;
- Applications and use cases of software-defined cloud computing in various domains such as healthcare, finance, and education.

Welcome to contribute!

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
