

Machine and Computer Vision Methods for Natural Images in Electronics and Interdisciplinary Applications

Guest Editor:

Prof. Krzysztof Okarma

Faculty of Electrical Engineering,
West Pomeranian University of
Technology, 70-313 Szczecin,
Poland

Message from the Guest Editor

The aim of this Special Issue is to bring together the research communities interested in computer and machine vision from various departments and universities that focus on electronics, automation, and robotics, as well as computer science. Topics of interest for this Special Issue include but are not limited to:

Deadline for manuscript
submissions:

closed (31 March 2023)

- Novel applications of computer vision in autonomous vehicles, video surveillance, and intelligent transportation systems;
- Quality assessment of natural images;
- Feature extraction and image registration based on novel handcrafted features;
- Machine vision for video simultaneous localization and mapping (VSLAM) solutions;
- Image-based navigation of unmanned aerial vehicles (UAVs) and other mobile robots;
- Binarization and segmentation algorithms of natural images;
- Fast image analysis methods for embedded solutions, e.g., using the Monte Carlo method;
- Natural image analysis for Industry 4.0;
- Exploration of data acquired using various sensors for non-destructive evaluation and diagnostics purposes (e.g., thermovision) using image analysis methods;
- Applications of natural image analysis in industry and agriculture.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPus / SciFinder](#), [Inspec](#), [Ei Compendex](#) and [other databases](#).

Journal Rank: JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)
