

Operation and Control of Power Systems

Guest Editors:

Prof. Dr. Hassan Haes Alhelou

School of Electrical and
Electronic Engineering, University
College Dublin (UCD), Dublin 4,
Ireland

Prof. Dr. Amer Al-Hinai

Department of Electrical and
Electronic Engineering, College of
Engineering, Sultan Qaboos
University, Muscat 123, Oman

Prof. Dr. Pierluigi Siano

Department of Management and
Innovation Systems, University of
Salerno, 84084 Salerno, Italy

Deadline for manuscript
submissions:

closed (31 May 2022)

Message from the Guest Editors

We would like to invite submissions to a Special Issue of *Electronics* on the subject of power systems operation and control, entitled “*Operation and Control of Smart and Modern Power Systems*”.

In future smart grids, keeping the operation in stable modes requires new techniques and technologies for better controlling and security assessment in such systems. Likewise, stability and security, which are the main issues when it comes to smart grids, should be well studied and analyzed. Moreover, new protection schemes are in demand in order to face any unexpected operation problems and contingencies in the smart grid environment.

In order to cope with ever-increasing operation and control complexity and security in modern and future smart grids, new architectures, concepts, algorithms, and procedures are essential. This Special Issue aims to encourage researchers to address the technical issues and research gaps in smart grid and microgrid systems.

an Open Access Journal by MDPI

Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
