

## Intelligent Distributed Resource Allocation in Wireless Sensor Networks (WSNs)

Guest Editors:

**Prof. Dr. Seokjoo Shin**

Department of Computer Engineering, Chosun University, Gwangju 61452, Republic of Korea

**Dr. Haeyoung Lee**

School of Physics, Engineering and Computer Science, University of Hertfordshire, Hatfield AL10 9AB, UK

Deadline for manuscript submissions:

**closed (31 January 2023)**

### Message from the Guest Editors

This Special Issue focuses on techniques in the scientific or engineering field of advanced WSNs, with review and research articles regarding the state-of-the-art development of WSNs for emerging applications to be considered for publication. Appropriate topics include, but are not limited to:

- AI-based resource allocation techniques in wireless sensor and IoT networks;
- Intelligent distributed resource allocation for WSNs;
- Collaborative multi-agent resource allocation for WSNs (e.g., federated learning);
- Optimization models for resource allocations for heterogeneous WSNs;
- Understanding the complexity of the interworking of WSNs, CRNs in IoT;
- Optimal use of both the licensed and unlicensed channels for WSNs—resource allocation and scheduling;
- Multi-objective resource allocation schemes for WSNs;
- Wireless-specific security, privacy, and authentication;
- Wireless sensor networks for a specific vertical field (e.g., e-health, smart cities, etc.).

an Open Access Journal by MDPI

## Editor-in-Chief

Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)
