

Advances in Sustainable Smart Cities and Territories

Guest Editors:

Prof. Dr. Juan M. Corchado

1. BISITE Research Group, University of Salamanca, 37007 Salamanca, Spain
2. Air Institute, IoT Digital Innovation Hub, 37188 Salamanca, Spain
3. Department of Electronics, Information and Communication, Faculty of Engineering, Osaka Institute of Technology, Osaka 535-8585, Japan

Prof. Dr. Saber Trabelsi

Science program, University of Texas A&M at Qatar, Doha 23874, Qatar

Deadline for manuscript submissions:

closed (31 December 2021)

Message from the Guest Editors

This special issue will include a selection of the papers presented in the International Conference on Sustainable Smart Cities and Territories, an open symposium which brings together researchers and developers from academia and industry to present and discuss the latest scientific and technical advances in the fields of Smart Cities and Smart Territories. It will promote an environment for discussion on how techniques, methods, and tools help system designers to accomplish the transition from the current cities towards those we need in a changing world. Thus, the topics of interest include but are not limited to:

- smart cities and smart territories successful cases and challenges
- smart homes and smart buildings
- smart infrastructures
- smart urban mobility and ITS
- smart health and emergency management
- smart environments, smart travel and smart tourism
- smart manufacturing and smart logistics
- new retail and smart commerce, smart urban governance
- eco-urbanism, urban resilience and climate change mitigation and adaptation
- energy and climate policy and intelligent traffic control

Welcome to contribute.

an Open Access Journal by MDPI

Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
