

Visual Analytics, Simulation, and Decision-Making Technologies

Guest Editors:

Prof. Dr. Kawa Nazemi

Head of Human-Computer Interaction and Visual Analytics, Faculty of Media, Darmstadt University of Applied Sciences, 64807 Darmstadt, Germany

Prof. Dr. Egils Ginters

Department of Modelling and Simulation, Riga Technical University, Kalku Street 1, LV-1658 Riga, Latvia

Dr. Michael Bažant

Faculty of Electrical Engineering and Informatics Department of Software Technologies, University of Pardubice, 532 10 Pardubice II, Czech Republic

Message from the Guest Editors

Dear Colleagues,

With the recent rise in cutting-edge technologies such as artificial intelligence, new and unsolved societal economic challenges can be solved sophisticatedly. Disciplines such as visual analytics, simulation, data analytics, natural language processing, and image and video processing combined with the human in the interaction loop have led to new systems, methods, concepts, and architectural designs that help us to face societal challenges, e.g., climate, mobility, sustainability, smart city.

In this Special Issue, we are interested in systems, system architectures, computational techniques, methods and models, and literature reviews in the areas of analytical decision making, collaborative work, sustainability, economy, simulation, object monitoring, and behaviour detection.

You are welcome to contribute!!!

Deadline for manuscript submissions:

closed (15 March 2023)

Special Issue

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)
