Deadline for manuscript
submissions:

closed (30 September 2019)

Message from the Guest Editors

Biometric recognition has become a burgeoning research area due to the industrial and government needs for security and privacy concerns. It has also become a center of focus for many authentication and identification applications in the civil and forensic fields. This Special Issue aims to solicit original research papers, as well as review articles focusing on recent advances in biometrics and its applications. We are inviting original research work covering novel theories, innovative methods, and meaningful applications that can potentially lead to significant advances in biometrics.

Additionally, the authors of the papers, presented at the 3rd International Workshop on "Recent Advances in Biometrics and its Applications" that we are organizing within the framework of the 2019 42nd International Conference on Telecommunications and Signal Processing (TSP), are invited to submit their extended versions to this Special Issue of the Journal *Electronics* after the conference. 20% discount will be applied. Submitted papers should be extended to the size of regular research or review articles, with at least a 50% extension of new results. There are no page limitations.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPus / SciFinder](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
