

Advances in Blockchain and Distributed Ledger Technology (DLT) for Industry 4.0 Technologies

Guest Editors:

Dr. Tiago M. Fernández-Caramés

Department Computer Engineering, Faculty of Computer Science, Universidade da Coruña, 15071 A Coruña, Spain

Prof. Dr. Paula Fraga-Lamas

Department of Computer Engineering, University of A Coruña (UDC), 15071 A Coruña, Spain

Deadline for manuscript submissions:

closed (31 August 2020)

Message from the Guest Editors

Through this Special Issue, we invite researchers from industry and academia to send high-quality and innovative work on recent advances in blockchain and DLT schemes for Industry 4.0 technologies.

Specific topics of interest include, but are not limited to:

- Blockchain and DLT foundations.
- Distributed system theory.
- Consensus algorithms.
- Identity management.
- Smart contracts.
- Security mechanisms.
- Performance evaluation.
- Standardization for Industry 4.0 technologies and DLT convergence.
- Use of DLT in cloud, fog and edge computing.
- Challenges of Blockchain and DLT schemes.
- Novel cyber–physical system.
- Blockchain and DLT-enabled Industry 4.0 applications like smart manufacturing, smart supply chain, intelligent transportation systems, smart grid, forensics, cyber-security or applications of big data analysis.

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
