Prof. Dr. Tommaso Isernia

Department of Information Engineering, Infrastructures, and Sustainable Energy, Università Mediterranea di Reggio Calabria, 89122 Reggio Calabria, Italy

Deadline for manuscript submissions:

closed (15 June 2023)

Message from the Guest Editors

Dear Colleagues,

The number of electromagnetic applications in industry and medicine has grown in recent years thanks to great technological advantages in these fields. Researchers have put a good deal of effort in developing tools and apparatus in line with expected performance for a given application.

The aim of this Special Issue is to collect recent expertise and provide a comprehensive overview of new solutions in applied electromagnetics. Topics of interest include but are not limited to industrial, agricultural and medical tomography, electromagnetic therapy, computational methods, antenna systems and sensors, theoretical and experimental works, and analysis and interpretation of data.

Dr. Roberta Palmeri

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
