submissions:

closed (30 December 2019)

Message from the Guest Editors

As the fourth industrial revolution arrives, including smart city, autonomous car, intelligent robot, and block chains, are moving to become electronic industries. The sharing economy, which is opposed to owning economy and market- and crowd-based products in the sharing economy, is expanded to all industries with the extensions of electronic platforms, like Uber, Airbnb, Justpark, LiquidSpace, Getaround, BlaBlaCar, Etsy, Eatwith, Fon, TaskRabbity, Skillshare, Yayable, and so on.

Dynamic open innovation between electronic technologies and markets are appearing as the requisite for firms of all types, such as start-ups, SMEs, or MNCs, in order to succeed in the fourth industrial revolution. We would like to encourage latest progress in the above fields to this Special Issue.

Additionally, the authors of the papers, which will be presented at SOLtmC 2019, being organized at Meijo University, Nagoya, Japan, on 28 June–1 July 2019, are invited to submit the extended versions to this Special Issue after the conference. Submitted papers should be extended to the size of regular research or review articles, with at least a 50% extension of new results.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **SCIE (Web of Science)**, **CAPus / SciFinder**, **Inspec**, **Ei Compendex** and **other databases**.

Journal Rank: JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Control and Systems Engineering)
