

## Multidimensional Digital Signal Processing

Guest Editor:

**Dr. Cataldo Guaragnella**

Dipartimento di Ingegneria  
Elettrica e dell'Informazione,  
Politecnico di Bari, Via E.  
Orabona 4, 70125 Bari, Italy

Deadline for manuscript  
submissions:

**closed (15 December 2020)**

### Message from the Guest Editor

Signal processing, image processing, and video processing are three research and application fields sharing the same background of digital signal processing.

The aim of this Special Issue is to focus on many signal, image, and video processing techniques and possible applications of multi-sensor/multi-technology/multi-dimensional data processing to give a large and complete view of this complex scenario.

Topics that include but are not limited to new methods, algorithms, solutions, and applications in the following areas:

- Adaptive signal processing
- Biomedical signal processing
- Communication signal processing
- Multi-dimensional signal processing
- Multimedia signal processing
- Non-linear signal processing
- Array of sensors signal processing
- Audio/video complex surveillance systems
- Action recognition and tracking
- Complex vision system for SLAM and scene modeling
- Statistical signal processing
- Machine learning for signal processing
- Complex networks in signal processing
- Real-time algorithms for multidimensional signal processing
- Hardware that is specific to multidimensional signal processing

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Flavio Canavero**

Department of Electronics and  
Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
