Molecular y Nuclear, Universidad
de Sevilla, 41080 Sevilla, Spain

Deadline for manuscript
submissions:

closed (5 April 2023)

Message from the Guest Editor

Dear Colleagues,

The fields of quantum electronics (e.g., superconducting circuits, quantum dots) as well as optoelectronics, have produced much interest in the past few years. They deal with quantum and optical platforms in combination with electronic and condensed matter systems, which may serve as building blocks for a plethora of applications in quantum computing and optical technology.

This Special Issue is devoted to the dissemination of high-quality research on the topics of quantum and optoelectronics. Areas considered, but not exclusive, are quantum electronics, optoelectronics, quantum optics, superconducting circuits, quantum dots, and integrated quantum photonics. Both theoretical contributions, as well as experimental implementations, will be published. Connections to emerging topics such as machine learning and artificial intelligence for designing and controlling physical devices are also valued. Original articles, as well as reviews on specific fields, are welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
