

Deep Learning Based Object Detection II

Guest Editor:

Dr. Youngbae Hwang

Department of Electronics
Engineering, College of Electrical
and Computer Engineering (ECE),
Chungbuk National University
(CBNU), Cheongju-si, Korea

Deadline for manuscript
submissions:

closed (30 November 2022)

Message from the Guest Editor

This Special Issue will cover the most recent technical advances in all deep learning-based object recognition aspects, including theoretical issues on deep learning, real-world applications, practical object detection systems, and originally designed databases. Both transfer learning or semi-supervised learning of deep learning are welcome. Reviews and surveys of the state-of-the-art in deep learning-based object detection are also welcome. Topics of interest for this Special Issue include, but are not limited to, the following topics:

- Image/video-based object detection using deep learning
- Sensor fusion for object detection using deep learning
- Transfer learning for object detection
- Online learning for object detection
- Active learning for object detection
- Semi-supervised learning for object detection
- Deep learning-based object detection for real-world applications
- Object detection systems
- New database for object detection
- Survey for deep learning-based object detection

an Open Access Journal by MDPI

Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **SCIE (Web of Science)**, **CAPus / SciFinder**, **Inspec**, **Ei Compendex** and **other databases**.

Journal Rank: JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)
