Message from the Guest Editors

For this Special Issue, the main goal of this Special Issue is to invite high-quality submissions in the form of original and novel research articles on big data privacy, privacy-preserving aggregation, privacy concerns of big data technology, the impact of big data on COVID-19, identity-based big data privacy, and privacy-preservation of Big data storage on the cloud. In addition, attention will also be given to several big data industry-driven applications. Topics of interest include but are not limited to the following:

- Big data privacy-preservation models
- Emerging standards for big data privacy preservation
- Impact of big data on COVID-19
- Privacy-preserving models in big data (e.g., K-anonymity, L-diversity, T-closeness, and δ -presence, etc.)
- Big data publishing differential privacy
- Integration of big data and IoT
- Big data principles for machine intelligence
- Infrastructure security and impact of big data privacy
- Privacy aspects of big data in healthcare and other industries.
