Deadline for manuscript submissions:
closed (30 June 2021)

Message from the Guest Editor

This Special Issue aims to encourage research in different aspects of intelligent video analytics. This area is largely open due to the difficulties in modeling multidimensional data, the challenges in extracting informative information, and also the computational overhead and lack of large and representative datasets in many application scenarios.

The topics of this Special Issue include but are not limited to:

- Action recognition;
- Image/video segmentation;
- Object detection and tracking;
- Video synthesis;
- Self-supervised video understanding;
- Sequential data (e.g., skeleton sequence) modeling;
- Other topics related to intelligent video analytics.

Welcome to contribute!

Special Issue

Editor-in-Chief

Prof. Dr. Flavio Canavero
Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.
Journal Rank: JCR - Q2(*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
