

Special Issue

Advances in Theories and Applications of Multi-Agent Systems

Message from the Guest Editor

The purpose of this Special Issue is to collect selected papers reporting on topics including the latest distributed control frameworks, paradigms and schemes for multiagent systems, ranging from theoretical analyses to practical applications, with a particular emphasis on multirobot systems and smart grid systems, such as distributed task assignment, collective simultaneous localization and mapping, rigid formation; the cooperative hunting of multiple unmanned ground vehicles, unmanned aerial vehicles, unmanned surface vehicles, autonomous underwater vehicles, spacecrafts; hierarchical voltage/current/power/load sharing for inverter-interfaced large-scale AC/DC islanded/grid-tied smart grid systems, where the distributed generators can be wind, solar, battery, supercapacitor, flywheel or other sources. About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
