

## Special Issue

# New Challenges in Cloud-Fog-Edge Computing and Mobile Intelligence

### Message from the Guest Editors

Expansions in Internet-of-Things (IoT) and mobile devices are revolutionizing the paradigms for computing and intelligent services. To harness the massive distributed computing potential of IoT and mobile devices, researchers have been working to implement cloud-fog-edge computing architectures and artificial intelligence algorithms on these devices for innovative applications. The *Electronics* Special Issue on “New Challenges in Cloud-Fog-Edge Computing and Mobile Intelligence” aims to explore the cutting-edge research in this field.

- architectures for energy- and resource-efficient cloud-fog-edge computing;
- big data management in cloud-fog-edge computing environments;
- distributed machine learning in cloud-fog-edge computing environments;
- context-awareness in IoT and mobile environments;
- blockchain-based security and privacy in mobile intelligence;
- secure and efficient data sharing in cloud-fog-edge computing systems;
- emerging applications of smart wearable healthcare systems;
- emerging applications of smart energy management systems;

---

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
