

## Special Issue

# 10th Anniversary of Electronics: Recent Advances in Microelectronics and Optoelectronics

### Message from the Guest Editors

It has now been ten years since the first paper was published in Electronics back in 2011. It has been a rocky road with many highs and lows, but we are extremely proud to have reached this very important milestone of the 10th anniversary of the journal. To celebrate this momentous occasion, a Special Issue is being prepared which invites both members of the Editorial Board and outstanding renowned authors, including past editors and authors, to submit a paper on the subject of Microelectronics and Optoelectronics. Topics of interest include but are not limited to:

- Micro/nanoscale electronic and optoelectronic materials and devices;
- Electronic and optical properties of semiconductor, inorganic, organic, and hybrid nanostructures;
- Optoelectronic and photonic applications of novel materials and nanostructures;
- Micro/Nanoelectronic circuit and device integration;
- Micro/Nanofabrication, processing and characterization techniques;
- Electronic applications of superlattices, quantum structures, and other nanostructures;
- Information processing and optical communications.

We look forward to receiving your submission to publicise your outstanding achievements.

---

### Guest Editors

Prof. Dr. Mengmeng Li

Prof. Dr. Brett D. Nener

Prof. Dr. Mattias Hammar

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
