

Special Issue

Innovations in Digital and Analog Electronic Systems for Next-Generation Devices

Message from the Guest Editors

The rapid advancement of technology has led to an increasing demand for innovations in digital and analog electronic systems. This Special Issue aims to explore the latest developments, challenges, and potential solutions in the field of electronic systems, specifically focusing on next-generation technologies. Topics of interest include, but are not limited to, the following:

- Novel circuit designs and architectures for digital and analog systems.
- The integration of digital and analog components for improved performance.
- Emerging technologies and materials for electronic systems.
- Power-efficient designs for energy-constrained applications.
- Signal processing and communication techniques for high-speed data transmission.
- Design methodologies and tools for electronic system development.
- The testing, verification, and reliability of electronic systems.
- Applications of electronic systems in areas such as specialized research instrumentation, healthcare, transportation, and the IoT.
- The simulation and hardware/software co-development of electronic systems.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
