Storytelling with Big Data

Message from the Guest Editors

Data analytics is being rapidly embraced by organizations due to its ability to extract insights from huge operational data. Instead of providing up-to-date developments and bring advancements in data analysis to the field, this special issue identifies one of main problematic aspects of Big Data analytics to focus on: lack of “story telling”.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
