Special Issue

Millimeter-Wave Phased Arrays for 5G and Beyond

Message from the Guest Editors

Millimeter-wave (mm-Wave) phased arrays have rapidly advanced from their early radar roots to become a foundational technology in modern wireless systems, particularly 5G and beyond. The scope of this Special Issue has been consolidated into the following topics:

- 5G Wireless Networks and Spectrum Considerations
- Advanced mm-Wave Antenna Design: Phased Arrays, Beamforming, and Software-Defined Systems
- Massive MIMO, Pattern-Reconfigurable Antennas, and Spatial Multiplexing
- Smart Antennas, Adaptive Beamforming, and Interference Management
- Millimeter-Wave Propagation and Channel Modeling in Urban Environments
- mm-Wave Transceiver Circuits, Hybrid Beamforming, and Phase Shifters
- Integrated Circuits, Low-Loss Materials, and Thermal Management for High-Power Arrays
- Fronthaul/Backhaul Solutions and Network Architectures for mm-Wave 5G
- Intelligent Sensors and Software-Defined Controls in Phased Array Systems
- Wireless Power Transfer, Energy Harvesting, and Pattern Recognition

Guest Editors Dr. Rashid Mirzavand

Dr. Mahdi Barati

Dr. Soumendra Singh

Deadline for manuscript submissions

15 September 2025

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
