

## Special Issue

# Advances in Internet of Things Sensors

### Message from the Guest Editors

Connecting billions of devices, the Internet of Things (IoT) has brought us into a new era of ubiquitous computing, sensing, and communication. While a great number of distributed IoT sensors demonstrate great potential in a variety of applications, generating sustainable power supply for these sensors is the challenge.

This Special Issue aims to highlight the advances in cutting-edge technologies that may enable battery-free IoT sensors and systems in the future. Original and review articles discussing the latest research into battery-free IoT sensors are welcome. The focus of this Special Issue includes, but is not limited to, the following areas:

- Energy harvesting systems for IoT sensors;
- Theoretical modeling of energy harvesting systems;
- Low-power and efficient interfaces or power management circuits;
- Novel IoT sensors for battery-free IoT systems;
- Wireless-sensor networks;
- Intelligence algorithms for IoT applications;
- Low-power computing and communication methods for IoT systems;

---

### Guest Editors

Dr. Mingjing Cai

Dr. Mingyi Liu

Prof. Dr. Biao Wang

Dr. Xin Li

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
