

Special Issue

Applications and Challenges of Image Processing in Smart Environment

Message from the Guest Editors

The purpose of this Special Issue is to explore the latest advancements, applications, and challenges in the field of image processing in the context of smart environments. With the rapid development of digital technology, image processing has become an essential component in various smart systems and applications, revolutionizing industries such as healthcare, transportation, surveillance, and automation. This Special Issue aims to gather original research papers, reviews, and case studies that address the diverse applications of image processing techniques in smart environments. Topics of interest include, but are not limited to, the following areas:

- Smart healthcare systems
- Intelligent transportation systems
- Smart surveillance
- Automation and robotics
- Smart home and Internet of Things (IoT)
- Augmented reality and virtual reality
- Multimedia forensics in smart environments
- Deep learning technologies in smart environments

Guest Editors

Dr. Xinshan Zhu

School of Electrical and Information Engineering, Tianjin University,
Tianjin 300072, China

Dr. Bin Pan

School of Statistics and Data Science, Nankai University, Tianjin
300071, China

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
