

## Special Issue

# Artificial Intelligence for Data Analysis

### Message from the Guest Editor

With the rapid progress of information technology and information systems in both hardware and software, artificial intelligence has become a powerful and emerging technique in data analysis. Using artificial intelligence to conduct data analysis has been an effective and efficient trend in many areas. The objective of this Special Issue is to employ the latest artificial intelligence techniques to perform data analysis theoretically or in application aspects. The scope of the Special Issue includes, but is not limit to, using artificial intelligence approaches, such as artificial neural networks, deep learning networks, hybrid intelligent systems of unsupervised learning and supervised learning, evolution algorithms, for data analysis in the following topics:

- Operations management;
- Manufacturing systems;
- Finance management;
- Renewable energy;
- Hotel management;
- Healthcare systems;
- Public health;
- Hospital management;
- Models optimization of artificial intelligence;
- Survey papers in related areas.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
