

## Special Issue

# Recent Advances in 3D Printing Technologies and Applications for Electronics

### Message from the Guest Editors

3D printing for innovative electromagnetic materials and devices are just starting to emerge. This Special Issue ambitiously aims to be an informative resource covering these opportunities, gathering novel research works and visions revealing the potential implemented in the new technologies. The would like to focus the attention on 3D-printing technologies in *Electronics*, with new materials with enhanced electric and magnetic properties, new designs of electronic equipment, sensors, flexible electronics, antennas, waveguides, photonics and optoelectronics, adaptive design methods for electronics, biomedical applications, micro-printing, etc. Potential topics may include, but are not limited to:

- 3D printing technologies and applications
- 3D printed electric and electronic circuits and schemes
- flexible electronics
- 3D printable materials
- 3D printed sensors and actuators
- 3D printed antennas and waveguides
- 3D printing in photonics and optoelectronics
- adaptive designs and optimization techniques for 3D printing
- 3D printed biomedical applications
- micro 3D printing

### Guest Editors

Prof. Dr. Valentin Mateev

Prof. Dr. Sanket Goel

Prof. Dr. Iliana Marinova

Prof. Dr. Subhas Mukhopadhyay

### Deadline for manuscript submissions

20 July 2025

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
