

Special Issue

Fiber-Optic Communication System: Current Status and Future Prospects

Message from the Guest Editors

The topics of interest include, but are not limited to, the following:

- Passive Optical Networks: recent advances in PON network design analysis, optimization and management.
- Active Optical Networks: recent advances in AON network design analysis, optimization and management.
- Dense Wavelength Division Multiplexing Networks: recent advances in DWDM network design analysis, optimization, and management; Open ROADM; SDN; NFV; and machine learning.
- Cybersecurity of fiber-optic communication systems: vulnerabilities of fiber-optic communications systems including the identification, detection, prioritization and various other aspects of vulnerability management.
- Power/energy consumption of fiber-optic communication systems: including either theoretical or experimental analysis.
- Cloud and edge computing: the application of fiber-optic communications systems in cloud and edge computing.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
