

## Special Issue

# Advanced Optical Detection and Imaging Systems

### Message from the Guest Editors

In recent decades, optical detection and imaging systems have revolutionized science, medicine, and engineering, enabling breakthroughs in fundamental research and practical applications. From cutting-edge microscopy techniques enabling nanoscale visualization to advanced sensing technologies driving autonomous systems and environmental monitoring, this field has seen exponential growth in recent years. The development of high-performance optical systems plays a pivotal role in tackling some of the most pressing challenges across disciplines. With the recent integration of artificial intelligence, computational imaging, and novel material technologies, the future holds even greater promise for pushing the boundaries of resolution, sensitivity, and application diversity.

- Development of novel optical imaging techniques;
- Novel optical detection mechanisms and instrumentation;
- Applications of advanced imaging in biological, industrial, and environmental contexts;
- Machine learning and computational methods for imaging enhancement;
- Integration of multi-modal imaging systems;
- New optical materials and devices enabling advanced detection.

### Guest Editors

Dr. Yide Zhang

Department of Electrical, Computer & Energy Engineering, University of Colorado Boulder, Boulder, CO 80309, USA

Dr. Zhe He

Shandong Institute of Advanced Technology, Jinan 250103, China

### Deadline for manuscript submissions

15 December 2025

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
