

## Special Issue

# AI-Enhanced Security: Advancing Threat Detection and Defense

### Message from the Guest Editors

The rapid advancement of artificial intelligence (AI) has opened new frontiers in the field of security, offering powerful tools to detect, prevent, and respond to evolving cyber threats. This Special Issue, *AI-Enhanced Security: Advancing Threat Detection and Defense*, will explore the intersection of AI, cybersecurity, and broader computer science applications to foster innovative research and practical solutions in digital defense. We invite original research papers, surveys, and case studies that leverage AI to address pressing challenges in security. While traditional topics such as AI-driven network security, intrusion detection, and anomaly detection remain central, we also welcome contributions that go beyond network-focused applications. This includes, but is not limited to, AI methods for malware analysis, fraud detection, deepfake and fake image recognition, biometric security, data privacy, digital forensics, adversarial machine learning, and secure AI model deployment.

### Guest Editors

Dr. Ning Yu

Department of Computing Sciences, The College at Brockport, State University of New York, Brockport, NY 14422, USA

Prof. Dr. Wei Zhong

Department of Computer Science, University of South Carolina Upstate, 800 University Way, Spartanburg, SC 29303, USA

### Deadline for manuscript submissions

15 September 2026

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
