

Special Issue

RFID Applied to IoT Devices

Message from the Guest Editors

We are pleased to announce that this Special Issue, 'RFID Applied to IoT Devices', is now compiling a collection of papers submitted by the outstanding scholars in this research field. We welcome contributions as well as recommendations. Our intention is for the Special Issue to highlight the diversity of the research lines currently in practice through specific works to help identify new and undiscovered research questions and establish novel collaborations between the extensive scientific community that is interested in RFIDs. Both original research and review papers are welcome! We expect these papers to be widely read and highly influential within the field. Topics of interest include, but are not limited to, the following:

- RFID application on sensing systems;
- RFID antenna design;
- RFID reader design;
- RFID protocol design;
- RFID application on power grid;
- RFID localization;
- RFID tag array;
- RFID application on supply chain;
- RFID security.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
