Advances and Challenges in Transportation Electrification

Message from the Guest Editors

This Special Issue solicits papers on new research achievements and challenges in transportation electrification. Topics of interest in this Special Issue include but are not limited to the following:

- Wide bandgap devices and transportation applications;
- Lightweight motor technology;
- Electric vehicle drive and charging;
- Hydrogen fuel cell vehicles;
- Space electric propulsion vehicle;
- More electric aircraft;
- Electric ships;
- Special electric vehicles.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.
