Special Issue

Al-Powered Natural Language Processing Applications

Message from the Guest Editor

In this Special Issue, we are particularly interested in exploring, characterizing, and evaluating emerging Aldriven methodologies in NLP and presenting innovative models, datasets, tools, benchmarks, and applications that demonstrate measurable impact in academic, industrial, or societal contexts. Topics of interest include, but are not limited to, the following:

- Foundation models / LLMs for text understanding, reasoning, and generation;
- Multimodal language processing (e.g., speech-visiontext fusion);
- Human-in-the-loop NLP, prompt engineering, and preference alignment;
- Domain-specific or verticalized NLP (e.g., legal NLP, financial NLP, medical NLP, and NLP for software engineering);
- Responsible and trustworthy NLP: fairness, safety, transparency, privacy, accountability, and explainability;
- Efficient, compact, or on-device NLP models and inference optimization;
- Benchmarking, evaluation metrics, and reproducibility in NLP systems;
- High-value industrial applications of NLP and generative Al.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
