

## Special Issue

# Quality-of-Experience (QoE) or Quality-of-Service (QoS) in Emerging Networks

### Message from the Guest Editor

Over the past three decades, extensive research has been devoted to understanding and enhancing quality-of-service (QoS) parameters across network layers, encompassing network, application, and service realms. This endeavor, driven by a desire to elevate user-perceived quality—commonly referred to as quality of experience (QoE)—has witnessed significant strides. This Special Issue aspires to curate a compendium of cutting-edge research, unveiling new perspectives on theories, methodologies, and applications of ML/AI in the quest to measure, evaluate, and optimize the QoS and/or QoE of networks and applications. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following topics:

- Artificial intelligence for QoS/QoE
- QoS/QoE for data analytics and machine learning
- QoS/QoE in software-defined networking
- Audio/visual/multimedia user experience
- Crowdsourcing-based QoE measurements
- Sustainability in/through QoE research
- Architectures and protocols for QoS/QoE support

I look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
