

## Special Issue

# Recent Advances in CMOS Integrated Circuits

### Message from the Guest Editors

This Special Issue will propose and discuss the progress of CMOS integrated circuits. The Special Issue will introduce the scientific status of the most relevant issues in integrated circuits and find new effective concepts and designs in the field of integrated circuits.

The Special Issue will make contributions to circuit design and signal processing research in academic and industrial fields. We invite investigators to submit original research articles to this Special Issue. Potential submission topics include but are not limited to the following:

- CMOS circuit
- Low dropout regulators
- low-power design of integrated circuits

---

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
