

## Special Issue

# Intelligent and Cooperative Communication and Networking Technologies for Vehicular Systems

### Message from the Guest Editors

Vehicular communication and networking technologies play a pivotal role in enabling intelligent transportation, improving road safety, and optimizing traffic efficiency. To address the challenges and expand the existing body of knowledge, this Special Issue invites high-quality research contributions on, but not limited to, the following topics:

- 5G/6G and Beyond for Vehicular Networks
- Edge and Fog Computing for V2X
- AI-Driven Traffic Prediction and Network Optimization
- Security and Privacy in Vehicular Communication
- Cooperative and Adaptive Communication Strategies
- Spectrum and Resource Management in V2X
- Ultra-Reliable and Low-Latency Communication (URLLC) for Autonomous Vehicles
- Integration of IoT and Vehicular Network

By fostering collaboration between academia, industry, and policymakers, we hope to accelerate the deployment of intelligent and cooperative vehicular networks that contribute to the future of smart and autonomous transportation systems.

---

### Guest Editors

Dr. Rand Raheem  
Dr. Aboubaker Lasebae  
Dr. Issam AL-Nader

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
