

Special Issue

Advancements in Signal Processing: Communications, Sensing and Imaging

Message from the Guest Editors

This Special Issue will include, but is not limited to, the application of digital twin technologies to address the following areas:

- Advanced communication systems and networks, including 5G/6G and beyond;
- Machine learning and other AI topics in signal processing for communications, sensing, and imaging;
- Signal processing techniques for wireless communications;
- Sensing technologies for smart environments and IoT applications;
- Innovative imaging techniques, including medical and industrial applications;
- Noise reduction, filtering, and signal enhancement methods;
- Data fusion techniques for multi-sensor systems;
- Security and privacy issues in communication and sensing systems;
- Signal processing for biomedical applications, including imaging and wearable sensors;
- Advances in optical and quantum signal processing;
- Visible Light Communications (VLCs) and Optical Camera Communications (OCCs);
- Adaptive systems and multimedia applications;
- Software-defined networking and network data analytics;
- Precision agriculture and environmental management systems;
- Power-efficient circuits for signal processing, communications, sensing, and imaging.

Guest Editors

Dr. Robert Alexandru Dobre

Dr. Declan T. Delaney

Dr. Juan Rodríguez Méndez

Deadline for manuscript submissions

15 December 2025

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
