

Special Issue

Advances in Human–Computer Intelligent Interaction

Message from the Guest Editors

This Special Issue, “Advances in Human–Computer Intelligent Interaction”, aims to showcase cutting-edge research and applications that push the boundaries of human–computer synergy. The issue seeks to highlight research that is shaping the future of intelligent systems and their impact on society. Contributions are invited in, but not limited to, the following areas:

- Adaptive Interfaces: Innovations in dynamic interfaces that adjust to user preferences and contexts, exploring speech, gesture, haptic, and other input modalities for enriched experiences.
- Cognitive Computing: Systems that understand, reason, and learn in interaction settings.
- AI for Accessibility: Solutions enhancing usability for individuals with diverse needs.
- Trust and Ethics: Investigating transparency, trust, and ethical implications in HCII.
- Emotion Recognition and Response: Integrating affective computing to improve interaction quality.
- Human–Robot Collaboration: Advances in cooperative and assistive robotics.
- Applications in Critical Domains: HCII in healthcare, smart cities, education, and industrial automation.

Guest Editors

Dr. Angélica Reyes

Computer Architecture Department, Polytechnic University of Catalonia, 08860 Barcelona, Spain

Dr. Juan Antonio Guerrero-Ibañez

Faculty of Telematics, University of Colima, Colima 28040, Mexico

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Signal Processing)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
