Special Issue

Machine Learning and Human Computer Interaction MLHCI

Message from the Guest Editors

Prospective authors are invited to contribute to and help shape the conference through submissions of their research papers. High-quality research contributions describing original and unpublished results of conceptual, constructive, empirical, experimental, qualitative, or theoretical work in all areas of machine learning and computer science are cordially invited for presentation at the conference. The conference solicits contributions of extended abstracts and papers that address the themes of the conference, related to one or more of the following tracks: Track - 1 Machine Learning Algorithms Track - 2 Deep and Transfer Learning Track - 3 Applications of Machine Learning Track – 4 Human–Computer Interaction Track - 5 Human–Environment Interactions Track - 6 Learning and Creativity

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:
JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
