

## Special Issue

# Wearable Electronics for Noninvasive Sensing

### Message from the Guest Editors

Wearable technologies have gained significant research and market traction in recent years. Wearables are often empowered with wireless communication, wireless powering, smartphone connectivity, and GPS/WiFi tracing functions. Integration with multi-function physical and biochemical sensors advances wearable applications in healthcare, fitness, therapy, senior and infant care, security, and safety, along with the features of convenience, comfort, and ubiquitousness. This Special Issue focuses on state-of-the-art non-invasive sensing technologies, particularly for wearables and their applications. This Special Issue welcomes research works on electrical, optical, magnetic, acoustic, and thermal sensing modalities, as well as the electronic device and system designs using these modalities for wearable applications. The scope includes, but is not limited to, ECG, EEG, EMG, IR (infrared) and NIR (near infrared), microwave, millimeter-wave, radio-frequency, ultrasound, nuclear magnetic resonance, and fluorescence sensing. For more information, please view our website: [https://www.mdpi.com/journal/electronics/special\\_issues/47GLXS5DJT](https://www.mdpi.com/journal/electronics/special_issues/47GLXS5DJT) Welcome to contribute!

### Guest Editors

Prof. Dr. J.-C. Chiao

Department of Electrical and Computer Engineering, Southern Methodist University, Dallas, TX 75205, USA

Dr. Souvik Dubey

Abbott Laboratories, Sylmar, CA 91342, USA

### Deadline for manuscript submissions

closed (15 September 2024)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
