

Special Issue

Emerging Trends in IoT/Blockchain Security and Privacy

Message from the Guest Editors

The convergence of the Internet of Things (IoT) and blockchain technology has opened up exciting opportunities for decentralized, secure, and autonomous systems. However, this integration also brings forth critical security and privacy challenges that demand urgent attention. This Special Issue aims to explore cutting-edge research that addresses the vulnerabilities, threat models, defense mechanisms, and privacy-preserving strategies at the intersection of IoT and blockchain technologies.

- **Scope:** We welcome high-quality, original research articles, review papers, and case studies that investigate new architectures, security models, lightweight cryptographic protocols, privacy-preserving data management techniques, threat detection algorithms, secure consensus mechanisms, and decentralized identity management. Special attention will be given to resource-constrained environments, real-time communication, and multi-stakeholder ecosystems.

Guest Editors

Prof. Dr. Yunshu Liu

The School of Cybersecurity, Northwestern Polytechnical University, Xi'an 710129, China

Dr. Peng Sun

Department of Computer Engineering, College of Computer Science and Electronic Engineering (CSEE), Hunan University, Changsha 410082, China

Deadline for manuscript submissions

15 January 2027

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
