Special Issue

Broadband High-Power Millimeter-Wave and Terahertz Devices

Message from the Guest Editors

This Special Issue will highlight recent advancements in the analysis, design, and application of broadband highpower millimeter-wave and terahertz technologies. Possible topics include, but are not limited to, the following:

- Electromagnetic field theory;
- Electromagnetic modeling;
- Inverse design and AI in broadband high-power millimeter-wave/THz design;
- Multi-physics simulation and analysis;
- The rapid analysis and computation of large electronic dimensions;
- Broadband high-power millimeter-wave/THz waveguide components and transmission lines; quasioptical technology; antennas/arrays; metamaterials/metasurfaces; sources, devices, and systems; materials; breakdown; measurement techniques; modules; power conditioners, modulators, and supplies; device and system integration; system (radars, communications, and counteraction); system and subsystem reliability; sensing;
- Thermal power management and control;
- High-power millimeter-wave/THz devices in biology and medicine.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
