

## Special Issue

# Safety of Real-Time and Cyber-Physical Systems

### Message from the Guest Editors

Ongoing technology advancements in transportation, smart cities, healthcare, and other fields have continued to increase the integration of cyber-physical systems (CPS) within our daily lives. While these adoptions have dramatically enhanced the human experience, they have also considerably increased safety risks to end-users. This Special Issue delves into the multifaceted realm of "Safety of Real-Time and Cyber-Physical Systems". It encompasses a rich tapestry of research and insights aimed at addressing the critical challenges, innovations, and best practices that ensure the secure and reliable operation of these systems. These include, but are not limited to, the following topics: (1) Cybersecurity and resilience in CPS (2) Human-Machine Interaction and User-Centered Safety (3) Emerging Technologies and Safety (4) Ethical AI and Safety

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
