

Special Issue

Advanced Energy Storage Technologies for Integration in Sustainable Energy Systems

Message from the Guest Editor

This Special Issue aims to explore the multidisciplinary advancements in energy storage technologies and their integration into sustainable energy systems. Potential topics include but are not limited to the following:

- Renewable energy integration
- AI-driven strategies for storage optimization and management
- Advances in hybrid storage solutions, including batteries and hydrogen systems
- Cutting-edge materials for enhanced energy storage performance
- Electric vehicles as mobile storage units and their grid interaction
- Flexible and quantum electronics in energy storage
- Microelectronics and power electronics for storage systems
- Novel sensors and diagnostics for storage performance monitoring
- Safety, reliability, and lifecycle assessment of storage technologies
- Semiconductor innovations in storage device design

Guest Editor

Dr. Arian Zahedmanesh

School of Electrical and Information Engineering, The University of Sydney, Sydney, NSW 2006, Australia

Deadline for manuscript submissions

15 January 2026

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
