

Special Issue

Intelligent and Autonomous Sensor System for Precision Agriculture

Message from the Guest Editors

The greenhouse gas emissions from agriculture, livestock, and land use have increased globally. Additionally, the increase in the human population emphasizes the importance of a stable supply of agricultural products and food. Therefore, it is essential to simultaneously reduce greenhouse gas emissions while increasing the productivity of agricultural and food products. This Special Issue focuses on technologies in intelligent and autonomous sensor systems for smart precision agriculture that improve agricultural productivity while tilting the global environment toward realizing food security. This Special Issue will encompass a variety of related contributions from the keywords mentioned below.

- sensor system for precision farming
- sensor system for precision livestock farming
- sensor system for smart agricultural machinery

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
