# **Special Issue**

### Neuromorphic Devices, Circuits, Systems and Their Applications

#### Message from the Guest Editors

The aim of this Special Issue is to bring together the latest advances in neuromorphic computing. Emerging devices and architectures as well as the latest advances based on conventional CMOS VLSI technologies will be addressed. Special emphasis will be given to solutions that overcome the bottleneck of von Neumann architectures. Researchers are invited to send their contributions in the following topics: (1) Materials and devices: memristors, synaptic devices, etc. (2) Neuromorphic circuits (3) Neuromorphic computer architectures: beyond von Neumann architecture (4) Deep neural networks (5) Spike neural networks (6) Neuromorphic algorithms: machine-learning and nonmachine learning (7) Hardware accelerators (8) Neuromorphic applications in different areas: health, automotive, industry, natural sciences, agriculture, astronomy, etc. (9) Bioethics https://www.mdpi.com/journal/electronics/special\_issu es/5810WGF6R1

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

#### Editor-in-Chief

Prof. Dr. Flavio Canavero Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

#### **Author Benefits**

#### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

#### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
