

Special Issue

Security and Privacy in Vehicular Networks: Emerging Challenges, Intelligent Defenses, and Trustworthy V2X Communications

Message from the Guest Editors

This Special Issue aims to bring together high-quality original research and review articles addressing recent advances, open challenges, and future directions in security and privacy for vehicular networks. We welcome theoretical, experimental, and applied contributions on secure communication protocols, privacy-preserving authentication, intrusion detection, blockchain-enabled trust, AI-driven security, lightweight cryptography, secure edge/fog computing, digital twins, and resilient architectures for next-generation vehicular systems.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Signal Processing)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
