

## Special Issue

# Advanced Intelligent Control Theory and Applications in Industrial Electronic Systems

### Message from the Guest Editors

This Special Issue provides a platform for researchers and practitioners to present the latest theoretical and technological advancements in industrial control systems, aiming to improve productivity, quality, and safety at low costs across a variety of industries.

Application areas include robotics, new energy systems, and other related industry applications. The topics of this Special Issue include the following:

- Control theories, design, and implementation for industrial systems.
- Adaptive control, optimal control, robust control, and intelligent control for industrial systems.
- Sliding mode control, backstepping control, model predictive control, etc.
- Neural network control, fuzzy control, reinforcement learning control, etc.
- Application of data-driven and digital twin technologies in industrial systems.
- Applications to robotic systems, manipulators, new energy systems, autonomous systems, etc.

---

### Guest Editors

Dr. Zhuang Liu

Prof. Dr. Jianxing Liu

Prof. Dr. Dezhi Xu

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
