

## Special Issue

# Feature Review Papers in Microelectronics

### Message from the Guest Editors

This Special Issue, "Feature Review Papers in Microelectronics", is dedicated to showcasing the advancements and applications of microelectronics in emerging and challenging technologies. It aims to publish cutting-edge **reviews** that explore the diverse applications of microelectronics in emerging, frontier, and challenging technologies. This Special Issue provides a platform for scientists and electronic designers to share their experiences and successes, with a particular emphasis on circuit design, modeling, simulation, and testability methodologies. Overall, it contributes to the advancement of microelectronics and fosters collaboration within the field. *You are welcome to contribute!!!*

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
